## CHEMICAL ANALYSIS PROVES Primo Lager

In every test made of various beers sold in Honolulu Primo Lager is the only one found pure. Imported beers contain acids to preserve them which are injurious to the health. All dealers sell Primo Lager, so insist on having a pure article.

### Bargain.

A fine large Building lot on the slopes of Punchbowl graded and terraced, and commanding a beautiful view of Diamond Head and the sea, is offered for sale at a bargain. The place is high and dry, yet not two minutes distance from the Rapid Transit cars. Just the place for a home out of town as far as dust and smoke are concerned, yet within such an easy distance that a man could have plenty of time to go home to lunch.

Anyone interested can have full particulars at this office.

DR. BISHOP GIVES AN INTEREST-CURRENT CONTROVERSY.

EDITOR STAR: Probably some of fecord. our renders will be interested in a excellent throughout. The table shows discussion now in progress upon "Man's the course of the contest.

Place in the Universe," meaning the The match for the ladies' single isible universe of stars.

peculiar theory lately propounded by Mrs. Elston, winner of this year, will the eminent but aged scientist Alfred be played Monday on Heretania courts this: That the Milky Way, being the doubles drawing will take place at this That the Milky Way, being the boundary of the visible stars, encloses Pearson & Potter's the first games to the actual universe; that our sun is central to the plane of the milky way, and central to a cluster of stars which are similarly located; that our earth is probably the only planet in the solar system which has been capable of developing Human or Rational life; that the outer orbs of the universe are probably Ill-located for such developnent of humanity; and hence that our earth must be the sole abode of human-ity, and that "the supreme end and purpose of this vast universe was the production and development of the living soul in the perishable body of man," on this earth.

The Theologians have not seemed to be interested in this discussion. Several eminent astronomers have taken it up adversely to Dr. Wallace, Before ne is an article by Professor H. H. Turner of Oxford. He asks why any-one of our alleged "cluster of suns" should not "possess planets as well adapted as we are to develop high forms of organic life?" This seems conclusive.

Less so, perhaps, is an argument of Prof. Turner, that our central position In the milky way is only temporary, because the Sun is moving among the tars with a velocity which would carry Bread knives, Paring knives, Slicers, it beyond the milky way in certainly less than fifty millions years, which Game Carvers, Butter knives, Kitchen saws, Scissors (all sizes and kinds), is about the average period allowed for Oyster knives, Forks and spoons and organic life upon the earth. To this I would answer that our sun is probably The most complete stock in the islcircling in an orbit of limited diameter so that it cannot travel beyond the comparatively small cluster of stars to which it belongs. Thus whatever centrality it has, is probably a permanent

The most effective answer to Dr. Wallace seems to be one which denies his assumption that there is no stellar put of gold will exceed that of 1902 by inverse beyond the Wiley West universe beyond the Milky Wey, beause our telescopes fail to reveal any. Several of his opponents point out the well-known fact that Space is occupled by numberless multitudes of meteorites and other opaque bodies. At a sufficient distance, such as that beyond the Milky Way, these would constitute a fog-vell which, would necessarily obstruct and cut off the light of all tars lying beyond, and the outer space THE YOKOHAMA SPECIE BANK yould be apparently stariess.

Prof. Turner alludes to the revelation

made by the new star Nova Persei, whose outburst of light illuminated a vast congeries of dark nebula-wisps Subscribed Capital ..... Yen 24,000,008 Paid Up Capital ......... Yen 18,000,008 ying in its region. Such dark nebulae Reserve Fund......Yen 9,060,000 doubtless are common. Large and dense ones may constitute the well known "Coul-sacks," which are spots of intense blackness in the southern The Bank buys and receives for colheavens. Some have supposed them to sec" in Bills of Exchange, issues 'crafts be openings among the stars into the and Letters of Credit, an transacts a blank immensity of space beyond.

The most remarkable position I have met is that of Sir Robert Ball who holds that space is pervaded by "dead" and lightning have done great damage or dark suns a million times more numerous than the live or bright stars. This is probably a deduction from the duration of a live solar activity, and the frequency of such collisions of Associated Press, Morning Service.

dead solar orbs as would be necessary WORONESCH, May 28.—Ten thoudead solar orbs as would be necessary to restore them to activity and maintain an undiminished number of stars. The spectroscope has begotten a good deal of actual knowledge about the processes of generating life in stars, things bring us into converse with the tained. endless and numberless seons of eternity, as well as with the boundless

reaches of immensity. The infinite God prevades the whole. S. E. BISHOP, Honolulu, May 28, 1902,

# 

The d'Albert violin recital at Progress Hall last evening under the auspices of the Kilohana Art League was not as well attended as it deserved to While in some respects d'Albert's performances were not up to the expectations that had been created of him there was abundance in the program to took his audience by storm with his splendid baritone voice and pleasing Miss Castle, as she always game. does, afforded real musical pleasure with her accompaniaments. Whitney, who has not been heard often of late gained new admirers and pleased old ones. Miss Hopper made an excellent impression. Miss Hartnagle gave two numbers well suited to display the volume of her volce. The following is the program of the evening. Violin and Piano-Sonate op. 45... Edward Grieg Allegro molto ed appassionate.
